PESTILENTIAL FILTH

Exhibited to a Reporter by the Health Officer.

SERIOUS STATE OF AFFAIRS

In Some Parts of the First Ward, Twenty Cases of Diphtheria and Eight Deaths the Result to Date—Fifth Grave.

The diphtheria scourge in North Wheeling is slowly but surely assuming the proportions of an epidemic, and that there is good and sufficient cause for alarm, no one who is conversant with the facts can deny. There are about twenty cases, and since the disease first made its appearance seven deaths have occurred. The mingling of children in school seems to have been to some extent responsible for the spread of the disease germs, while the very filthy condition of some parts of the First ward is responsible for the firm hold they have taken.

According to the best medical theories, diphtheria germs, when brought in contact with the human system by contact with the germs given off by contracting filth, become very much more virulent, and are more likely to take a firm hold and prove fatal.

In North Wheeling this theory has been well demonstrated. The disease has had its origin in the place where the greatest amount of filth exists, and has been carried to similar places principally by the action of the wind. At a house on Coal street, where the privy vault is built of boards, and is located in the back yard, at such an elevation that the bottom of the vault is level with the dwelling, the filth in the vault is coming down the hill from a stone wall which holds the hill from coming down. On the face of this stone wall

from above can be seen a trail through the cracks and seeping from the porous surface. All along Coal street the same conditions exist. The vaults are nearly all filled to a level with the ground, and in many places the earth is banked up to prevent the contents from running off in a liquid state. The earth seems saturated with filth, and the odor given off by the vaults and their contents is horrible. At another Coal street house, where the disease existed a few days ago, three or four abundant signs to indicate the reason. The vault is located in the high ground above the house, and the liquid filth from the household runs its way to a corner under a stone wall near the house. The odor of the back yard is simply horrible, and one accustomed to even decent surroundings is at once impressed with the foulness of the locality.

At another place visited, the stench could be noticed twenty or thirty yards away. An investigation showed that a stream of filth, which should be sewage, is allowed to run in a paved gutter to the street, and continues for a distance of about a mile.

THE GAME WAS A DRAW.

Anderson Helped Wheeling Out of a Hole.

The second game of ball played between the Philadelphia Leaguers and the picked nine of Wheeling and Bell-air professionals at Island park yesterday afternoon, was witnessed by about 600 people. The game was a very draggy one, after the third inning up till the ninth, the Phillies having things all their own way. Glasses pitched up till that time when he gave a hit to Anderson. That individual signalled his advent in the box by giving six men in succession bases on balls. Then Billy George pitched out a home run. Sanders had to go in the box to save the game. The score was tied, and as the Phillies had to leave at 6:10 o'clock the game was declared a draw.

To-day the Pittsburgh League team will be here. Morrison and Westlake will be Wheeling's battery. The score of yesterday's game was as follows:

WHEELING	PHILADELPHIA
Anderson, 1	Delahanty, 1
White, 1	Shaw, 1
George, 1	Thompson, 1
Stapleton, 1	McInnis, 1
Wells, 1	McInnis, 1
Berkus, 1	McInnis, 1
Total, 6	Total, 6

Wheeling: Anderson, 1; White, 1; George, 1; Stapleton, 1; Wells, 1; Berkus, 1. Philadelphia: Delahanty, 1; Shaw, 1; Thompson, 1; McInnis, 1; McInnis, 1; McInnis, 1.

Meeting of the Chamber of Commerce, Committee Appointed to Act With the County Commissioners.

Members of the Chamber of Commerce turned out handsomely last night in response to the special call of President Quier.

In response to invitation Judge Cochran told what he knew of the coming of the capitalists interested in the Union bridge. He was advised that they were desirous to see the city.

President Robbins, of the Board of County Commissioners, said that while there had been no opportunity to pass the bill, it was not yet decided whether those who he talked thought it proper that the county, as being associated with these gentlemen in their enterprise, should give them a cordial welcome.

A BRIEF PREPARED

By Mr. Edson C. Brace, to be Presented to the SECRETARY OF THE NAVY.

Giving Reason why One of the New War Ships Should be Called "Wheeling"—Mr. Brace Wants to be Successful.

A few weeks since the INTELLIGENCER reported the fact that a movement had been started to have one of the new cruisers being constructed by the Government named after this city. The idea originated with Mr. Edson C. Brace, of the Navy Department, who was formerly a well known newspaper man of this city. He communicated his idea to the Hon. G. L. Crammer and enlisted the co-operation of that gentleman, and several other prominent gentlemen learned of the proposed movement have shown an interest in it. Judge Crammer has received another letter from Mr. Brace about the matter in which he says:

"I have seen the Secretary of the Navy, who told me he thought I had a good case and that he would be glad to give me a hearing when I could get my brief in shape. From this I inferred he had not seen my first brief, and now I know that it was pigeon-holed by a Board of Naval Officers, who have about as much appreciation of historical proprieties and virtues as any of our popular politicians. I want to succeed, having gone into this matter. I enclose a rough draft of a brief to the Secretary, in which you will see what I think ought to be done by the citizens of Wheeling. Cruiser No. 7 is to be a 3,000-ton vessel of high power, of a noble type, and is expected to have a life of from fifty to seventy-five years. It would be a great thing for Wheeling to be immortalized in all parts of the globe by such a ship as this, and it is a practical proposition; the present Boston is the fourth."

The brief prepared by Mr. Brace to be presented to the Secretary of the Navy, and which he enclosed in his letter, was as follows:

MR. BRACE'S BRIEF.

Sir:—I have the honor to ask your attention to the following statement relative to the naming of one of the new cruisers, which has been named the "Concord" to commemorate the field of the first blood of the Revolution, and another has been named the "York" (Boston, White or Grey) and the third the "Columbia" and the fourth the "Columbia" and the fifth the "Columbia" and the sixth the "Columbia"
